MURARISAI TADEPALLI

B.Tech CSE–IoT Student | Software Development | AI & Generative AI

Hyderabad, India • **tmurari2007@gmail.com** • **9154750615** • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Second-year Computer Science and Engineering (IoT) undergraduate at VNR VJIET with an interest in software development, Artificial Intelligence, Generative AI, and backend engineering. Building practical experience through programming, database-backed applications, AI integration experiments, and IoT prototypes. Eager to learn emerging technologies, solve real-world problems, and contribute to collaborative projects.

TECHNICAL SKILLS

Programming	Python, C, Java, JavaScript
Backend & APIs	Node.js, Express.js, REST APIs
Databases	MongoDB, Mongoose
AI / Generative AI	LLMs, RAG, LangChain, Ollama, text embeddings, semantic search
IoT & Tools	Arduino Uno, HC-SR04, sensor interfacing, Git/GitHub, VS Code, Postman, Tinkercad

PROJECTS

AI-Based Smart Farmer Procurement System

Developed a prototype focused on digital farmer procurement, including slot booking, booking workflows, queue management, and farmer/admin access.
Stack: JavaScript, Node.js, Express.js, MongoDB, HTML/CSS.

Ollama-Based Semantic Search & Embedding Integration

Explored local language-model integration and text embedding generation with Ollama and LangChain; practiced backend connectivity and API testing for AI-powered information retrieval.
Stack: JavaScript, Ollama, LangChain, REST APIs.

IoT-Based Smart Water Level Detector

Built an Arduino-based monitoring prototype using an HC-SR04 ultrasonic sensor, LEDs, and a buzzer to indicate water levels.
Stack: Arduino Uno, Arduino C/C++, ultrasonic sensor, LEDs, buzzer.

EDUCATION

B.Tech, Computer Science and Engineering – Internet of Things (CSE–IoT)

VNR Vignana Jyothi Institute of Engineering and Technology (VNR VJIET) | Second Year | **CGPA: 9.5**

Intermediate: 97.7% **Class 10:** 464/500

ACTIVITIES & CAREER FOCUS

Interested in hackathons, collaborative prototype development, and continuous coding practice. **Career focus:** software development, backend engineering, AI applications, and IoT-based solutions.
